EDUCATION

Eskişehir Teknik
Üniversitesi

Computer Engineering

2019 - June 2023

Thesis: Bhealth: AI
Supported Honey Bee
Health Analysis [\(Link\)](#)

SKILLS

- C# .NET
- ASP.NET
- Entity Framework
- SQL
- Javascript
- Typescript
- Angular
- Java

LANGUAGES

- Turkish
- English

HOBBIES

- Video Games

ABOUT ME

I am a junior full-stack web developer who has robust knowledge of applying design patterns into different problems to provide extensibility which decreases maintenance time. I mainly worked with ASP.NET Core and Angular.

EXPERIENCE

PART TIME SOFTWARE DEVELOPER

P.I. WORKS INC.

SEP 2022 - AUG 2023 (11 Months)

- I was main responsible of reconstruction of a part of main product's UI from scratch by using up-to-date technologies.
- Built a part of main product's ui from scratch using Angular RxJs
- Maintained ASP.NET Core Endpoints related to my part to return correct http status codes.
- Debugged ASP.NET Core Endpoints for data correctness.
- Wrote E2E tests using cypress
- Added Response compression to server code which results in faster FCP(First Contentful Paint).
- Investigated of consul and nginx usage in together for load balancing by usage of custom tags.
- Attendent to many various software educations in the company.

SOFTWARE DEVELOPMENT INTERN

BENTEGO

AUG 2022 - AUG 2022 (1 Months)

- 20-day compulsory internship
